Of the Eclipses this Year, 1694.

FOUR times this Year will the Two Luminaries be Eclipsed, twice the Sun, and as often the Moon, of which one only will be conspicuous to the Inhabitants of *Great Britain*;

And that will be of the Moon, upon the 26th day of *June* at Nine minutes before 12 at Night, at which time the moons Body will be darkned by the Earths Shadow.

A description of the four Quarters of the Year.

THE Spring begins *March* the 10th day, 14 min. after 1 in the morning.

The Summer begins *June* 11th day, at 4 in the morning.

Autumn begins *September* the 12th day, 42 min. after 7 at night.

The Winter begins the 10th day of *December*, 30 minutes after 6 at night.

Rules

Rules concerning Husbandry.

WHen you would Plant or Graft, consider where the wind bloweth, if it be in the South, it is very good for that purpose, but if in the North or East it is not good.

It is good to Plant or Graft generally the Moon encreasing in these Signs, *Taurus* or *Aquarius*, in the beginning of the Spring, or latter end of Harvest.

Plant Trees for continuance, when the Moon is in *Taurus*, *Leo*, or *Aquarius*.

Cut Timber to have it sound, in *December* or *January*, in the wane of the Moon in *Aquarius* or *Pisces*.

Prune Trees, & pull off the Moss in the Month of *February*.

Plash Hedges, and lop Trees for Fewel, that the heads may the sooner grow again, when the Moon is in *Aries* or *Libra*, and in her increase.

Set young Quicksets from *September* to *March*.

Remove young Trees in the last quarter of the Moon, when she is in *Aries*, *Libra*, *Scorpio*, and in these Months, *September*, *November*, *February*.

Set Vines in *February*, *March*, or *September*, especially the Moon in *Aries*, *Libra*, *Scorpio* in her increase.

Set Rose-Trees in the midst of *February*, the Moon encreasing.

Cut or Prune Trees in *March* or *April*, the Moon in *Taurus*, *Virgo*, or *Capricorn*.

Gather Fruit, as Apples, Pears, and the like, at the full Moon in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung Ground to prevent growing of Weeds, the Moon decreasing.

Sow Carret-seeds about the end of *February*, or the beginning of *March*, the Moon encreasing. Also sow Onions and Leeks in *February* or *March*, in the wane of the Moon.

Sow Cucumbers and Melons in *February* or *March*, or *June* in a hot fair day.

Sow Parſley, Fennel, and Anniſeed, in *February* or *March* at the full of the Moon.

Sow Marjoram, Violets, Time, Roſemary, and Lavender, in *February*, *March*, or *April*, in the increaſe of the Moon.

Sow Gilliflowers and Wall-flowers, in *March* or *April*, in the old of the Moon.

Sow Hyſop and Savory in *March*, when the Moon is old.

Sow double Marigolds in *February* or *March*, in the increaſe of the Moon.

Shear Sheep at the increaſe of the Moon.

The beſt time to Geld Cattel the Moon being in *Aries*, *Sagitarius*, or *Capricorn*.

Of Blood-letting, and ſome other Phyſical Obſervations.

IN Youth let Blood from the change to the firſt quarter: In Middle-age, from the firſt quarter to the full: in Elder years from the full to the laſt quarter: in Old age, from the laſt quarter to the change. But know, that under the Age of 14 and above the Age of 56 it is not good to bleed at all.

Again, in the *Canicular*, or Dog-days, it is very hurtfull to take any Phyſick at all, unleſs there be great need: and indeed *Neceſſity hath no Law*: Wherefore in ſuch a caſe, the diſeaſe being deſperate, the cure muſt be adventured.

Take a Purgation when the Moon is in Trine, or Sextile aſpect with *Venus*, decreaſing in any of theſe three Signs, *Cancer*, *Scorpio*, or *Piſces*, and it will be ſure to work the better, becauſe when a moiſt Planet, in a moiſt Sign hath ſuch an aſpect, the humours in the Body are then ſtirred up and down, and ſo the better purged out; wherefore in this caſe, it cannot be amiſs to prepare humours by ſomething that is laxative: and let this be done whilſt the Moon is either in *Gemini*, *Libra*, or *Aquarius*.

Take a Vomit, that it may work throughly, when the Moon

is in *Aries*, *Taurus*, or *Capricorn*: and know that the aspects or the Moon with *Saturn*, or *Mars*, or the Moon in *Leo*, ought to be eschewed in the taking of Medicines.

Finally, if necessity urge no haste, these observations are expedient: for it is a plain truth, that the change of weather upon differing aspects, doth greatly change and alter mens bodies.
